For some two years the office of the DAILY INTELLIGENCER past, the letter states, Mr. Crane has on Saturday, 25th inst., at 71/2 o'clock been afficied with softening of the P. M., Mr. Henry Wallace, President, brain, and was taken from the rest- in the chair.

dence of his brother, in Nebraska, to St. Vincent Hospital at St. Louis, for treatment. He continued to grow worse, and on the 9.h inst, death relieved him from his sufferings. Mr. Crane was a gentlemsn of generous impulses. His remains will probably be brought here for interment.

Summer Ditt.—This, of all other seasons of the year, demands carefulness in dict. Bowel diseases are usually very prevalent smoong children. But this is, to a great extent, the fault of the parents; they are apt to indulge their children with food and drink which had better be withheld from their children with food and drilk which had better be withheld from them. The simplest food possible, is best for them—light, easily digested food, such as rice, milk, ripe fruit, etc. Fresh pork and veal should be avoided, as well as imperfectly matured polatoes, and particularly the unripe, will-ed and diseased apples and pears which appear in the market. A little extra care in regard to diet, proper attention to cleanliness, and the avoidance of exposure to drafts of sir, will do much toward preventing the summer complaints to which children are so subject.

On motion, the Club adjourned to meet next Thursday evening at 7½ clock at the office of the INTELLINGUENCE.

? Police Court.—Two cases were disposed of at this court on Saturday morning. Charles Biendenheiser was charged with committing an aggravated assault on William Wilson. The testimony fully established the charge, and Biendenheiser was fined twenty dollars and costs.

William Wilson, it appeared, was not altogether guiltless, and His Honor on him for his participation in the melee.

The case of Frederick Long, for assaulting and battering some one, was continued until this morning.

The prosecuting witness in the cases of Rennor and Hosenfeldt, charged with selling liquor on Sunday, failed to put in an appearance, and his Honor directed an attachment to be issued for him, which will probably have the effect to bring him into court. Since the complaint was made, it may be that some extra inducements have been offered him to absent himself from the city for a period. We have beard or such instances before, but do not affirm that such is the fact in the present one.

"As a remedy for kidney complaints the White Pine Compound stands univaled. It was not originated for that purpose, but a person in using it for a coup has not only cured of the couph, but was also cured of a kidney difficulty of ten year standing. Since that accidental discovery many thousands have used it for the same complaint, and have been completely cured."

The above was written by Dr. Poland, in 1860. Since then, as in Manchester, the White Compound has taken the lead of all Cough remedies, as well as a preparation for the cure of Kidney difficulties, in every city, town, vi lage and hamiet throughout the New England States.

The remedy is as safe and pleasant to take as it is effectual. THIS COMPANY HAVING DEPOSITED with the Treasurer of the State \$25,000, in compliance with the law, is now prepared to take all kinds of

THE EXTENSIVE USE OF THESE Watches by Railway Conduciors, Engineers, and Expressmen, the most execting class of watch-wearers, has thoroughly deemonstrated the strength, steadiness duratify and accuracy of the Waltham Watch. To satisfy that class in all these respects is to decide the question as to the real value of these timekeepers.

More than 800,000 are speaking for themselves in the pockets of the people.

Imported watches are made on an expensive system, in small numbers, but by numerous makers, and are placed in the markethere by an Importer who first secures a Monopoly of Sale of some one Mannifacture. To the Manniacturer's profit must be added cost of importation.

A profit of at least 25 per cent, payable in Gold.

A profit of at least 25 per cent to the Importer, another profit to the jobber; thus nearly doubling the cost of the imported watch.

At Waltham, Watches are manniactbred on a large scale, under one roof snd system of supervision and management, thereby ${ t JUST\,RECEIVED}$

watch.

At Waltham, Watches are manufactured on a large scale, under one roof and system of supervision and management, thereby saving many of the expenses necessarily incured in small establishments; hence their great cheapness.

All respectable dealers now sell Waltham Watches, and competition, as all the world knows, is invorable to small profits. The trade is satisfied, because, though the profit on each watch is small, the demand is large and all are salable.

Unscrupulous importers occasionally place a worthless bwiss imitation in the market. To avoid imposition, the purchaser abould invariably demand a certificate of genuiness, spend by the T. E. Kullens.

There are the company as there are different sizes and shapes to suit all tastes and means, but every Watch that bears the genuine trade mark of "WALTHAM" is gua-anteed to be a good one, and nobody need be afraid tobuy it.

TAKE PARTICULAR NOTICE.

Dr. J. addresses all those who have injured themseivs by improper indulgence and solitary habits, which rum both body and mind, untiting them for either business, study society or marriage.

These are some of the sad and melancholy effects produced by early habits of youth, viz: Weakness of the Back and Limbs, Palis in the nead, Dimness of Sight, Loss of Muscular Power, Palpitation of the heart, Dypepsia, Nervous Irritability, Perangement or the Digestive Functions, General Debility, symptoms of Consumption, &c. MENTALLY.—The fearful effects on the mind are much to be dreaded. Loss of Memory, Confusion of losas, Depression of Spirits, Evil Forebodings, Aversion to Society, Self-bistrust, Love of Solitude, Timidity, &c. are some of the evils produced.

Thousands of persons of all ages can now Judge what is the cause of their declining health, losing that vigor, becoming weak pale, nervous and the eyes, cough, and Symptoms of Consumption. TAKE PARTICULAR NOTICE,

What a pity that a young man, the hopeer his country, the pride of his parents, should be snaveled from all prospects and encoments of life by the consequence of deviating from the path of nature, and induging in a certain secret habit. Such persons must before contemplating
